

**The Maine STEM Collaborative  
and Colby College announce the**

# **2012 Maine STEM Summit**

## **Maine-Based STEM: Broadening our Engagement**

**March 20, 2012 - Colby College 8am-3:30pm**

The third bi-annual STEM Summit moves Maine beyond STEM awareness to community engagement. The morning will begin with a slate of short dynamic talks to inform, motivate, and facilitate the networking and prepare us for the afternoon “unconference” sessions.

These novel sessions will tap into Maine’s broad STEM expertise, inventory the many existing great efforts in STEM, and prompt conversation about the types of partnerships and activities that will grow and sustain Maine’s STEM Education and Maine’s STEM Economy. Don’t miss out on this exciting networking opportunity that will bring together K-12 teachers and counselors, informal educators in STEM, business and industry experts, government leadership, and university STEM faculty and professionals.

**Registration begins February 3rd, 2012 & ends March 8th**

**[www.umaine.edu/epscor/conference.htm](http://www.umaine.edu/epscor/conference.htm)**

**There is no cost to register but please note that participation is limited.**
