

IGERT

Integrative Graduate Education and Research Traineeship
NATIONAL RECRUITMENT PROGRAM

PhD funding opportunities.

\$30,000 stipend plus tuition and fees.

Over 150 programs at over 80 colleges and universities.

What is IGERT?

IGERT PhD programs provide interdisciplinary training in the science, technology, engineering and mathematics fields. Through innovative curricula, internships and practical experience, these programs train scientists and engineers in the technical, professional and personal skills needed to address the global questions of the future. IGERT programs give their graduates the edge needed to become leaders in their chosen fields.

To learn more about IGERT programs and how to apply, visit www.igert.org.

Why apply?

Receive graduate tuition and stipend support.

Combine interdisciplinary science with practical experience.

Choose from more than 150 programs at over 80 colleges and universities.

Transcend traditional boundaries.

Become a scientist for the future.
